Organisation Assurances

Short overview

Organisation Assurance

- Organisation Assurance
    - Is a program of CAcert to assurer organisations so that the organisation to have their organisation name in the certificates

CAcert

Organisation Assurance Process I

- How does the process works?
    - Request for Organsisation Assurance at support@cacert.org
    - Organisation Assurer team gets in contact with the requestor
    - Organisation fills COAP form
        - organisation name, address and legal type
        - domains
        - appoints CAcert Assuer as Organisation Adminstrator

Organisation Assurance Process II

- How does the process works? cont.

  - Organisation Assurer

    - checks the identity of the organisation

    - checks if the requested domains are owned by the company

    - checks if the appointed organisation Administrator

    - checks the identity of the signer of form and wether the signer is allowed to sign on behalf of the organisation

    - creates the Organisation Account and gives a short introduction to the Organisation Administrators

Organisation Assurance

- Help needed
